Native Instruments announces new KOMplete range

KOMplete 5 now includes MASSIVE and latest versions of KONTAKT and GUITAR RIG; new SYNTHS and CLASSICS bundles available

Berlin, September 12th, 2007 – Native Instruments today announced new KOMplete bundles that combine its acclaimed software instruments and effects into highly affordable collections for musicians and producers of all styles and genres. This includes the fifth revision of the KOMplete package, which contains new product versions and is now even more affordable, as well as the new KOMplete SYNTHS and KOMplete CLASSICS bundles that combine the award-winning software synthesizers and vintage emulations from Native Instruments.

The new KOMplete 5 builds on its position as the most powerful all-in-one collection for contemporary music production, live performance and sound design. The new bundle adds the acclaimed MASSIVE synthesizer as well as the latest versions of the industry-leading high-end sampler and digital guitar studio, KONTAKT 3 and GUITAR RIG 3. Further products included in KOMplete 5 are ABSYNTH 4, AKOUSTIK PIANO, BATTERY 3, B4 II, ELEKTRIK PIANO, FM8, PRO-53 and REAKTOR 5. The new KOMplete bundle is now even more affordable with a lowered price point of \$1149 / € 999, with several update and upgrade offers being available.

Two new bundles extend the KOMplete range with thematically focussed instruments collections that provide maximum sonic versatility in their respective field for a price of \$449 / € 399 each. The new KOMplete CLASSICS package specializes on vintage emulations and contains AKOUSTIK PIANO, B4 II, ELEKTRIK PIANO and PRO-53, while the new KOMplete SYNTHS provides a comprehensive synthesizer arsenal by combining ABSYNTH 4, FM8, MASSIVE and PRO-53. Both bundles allow for a discounted upgrade to the KOMplete 5 package at any time.

All components of the KOMplete bundles are also fully compatible with KORE, the advanced host system from Native Instruments.

KOMplete 5, KOMplete SYNTHS and KOMplete CLASSICS will be available in October 2007.

MASSIVE was designed and developed entirely by Native Instruments GmbH. Solely the name Massive is a registered trademark of Massive Audio Inc, USA.

About Native Instruments

Native Instruments is the pioneer and market leader in the field of software instruments, and one of the key players in the market of computer-based audio production technology. The company's mission is to develop outstanding musical tools for all styles and genres. The resulting products regularly push technological boundaries and open up new creative horizons for professionals and amateurs alike.

Native Instruments opened up the fascinating world of real-time sound synthesis on standard computers in 1996, and today offers an extensive product range for the Instruments, Guitar and DJ markets, designed and developed by three corresponding divisions within the company. Native Instruments currently employs more than 150 people in its two offices in Berlin and Los Angeles, and works closely with more than 40 international distribution partners to ensure its future growth and success.
