

Native Instruments releases TRAKTOR PRO 2.5

The new TRAKTOR PRO 2.5 software with Remix Deck™ technology is now available - free update for all TRAKTOR 2 generation users

Berlin, May 24th, 2012 – Native Instruments today announced the availability of TRAKTOR PRO 2.5. This latest version introduces the innovative Remix Decks™, giving access to a powerful loop suite made up of 64 slots, each able to hold loops, one-shot samples or even tracks. DJs can control up to four Remix Decks™ at once and save their work as an entire Remix Set™. To help DJs get started with the new technology, Native Instruments are giving away a selection of Remix Sets™, many of which were prepared by renowned artists. The free content, which amounts to 1.4 GB in total and covers a diverse selection of genres, is available to all users once they register TRAKTOR PRO 2.5.

Users of any TRAKTOR Generation 2 product will receive a free upgrade to the new 2.5 version. It also comes bundled with any TRAKTOR hardware, including TRAKTOR KONTROL F1 – set to hit stores worldwide on May 30th. TRAKTOR KONTROL F1 was designed specifically to control the Remix Decks™ and provides full and tactile control over the new feature, benefiting from seamless bi-directional software-hardware integration and offering full visual feedback through the multi-colored LED pads.

Pricing and availability

TRAKTOR PRO 2.5 can also be bought individually from the NI Online Shop, and costs \$89 / 79 € / 7800 YEN. All owners of TRAKTOR PRO 2, TRAKTOR SCRATCH PRO 2, TRAKTOR KONTROL S2 and TRAKTOR KONTROL S4 will receive TRAKTOR PRO 2.5 as a free update.

About Native Instruments

Native Instruments is a leading manufacturer of software and hardware for computer-based music production and DJing. The company's mission is to develop innovative, fully integrated solutions for all professions, styles and genres. The resulting products regularly push technological boundaries and open up new creative horizons for professionals and amateurs alike.

Native Instruments opened up the fascinating world of real-time sound synthesis on standard computers in 1996, and today offers an extensive product range for musicians, producers and DJs. The company currently employs around 300 people in its two offices in Berlin and Los Angeles, and works closely with more than 40 international distribution partners to ensure its future growth and success.
