Electronic Drum Sounds

Inspired by the overwhelming success of the SYNTHETIC DRUMS 1, a further sample library has been produced packed full with amazing, electronic drum kits. NATIVE INSTRUMENTS was successful in hiring the services of renowned, international artists from various electronic genres to produce this eclectic collection of kits. The result is a selection of 36 unique and contemporary drum kits that instantly distinguish themselves from other drum sample libraries.

Electrifying Beats

SYNTHETIC DRUMS 2 offers a huge selection of inspiring sounds. From earth-shuddering bass samples and snares that cut straight through the mix to effects that instantly capture the imagination, this collection encompasses an extremely wide range of electronic styles. Whether House or Hip-hop, IDM or UKG, Techno or Trance, R'n'B or D'n'B, Old School or Nu Skool – SYNTHETIC DRUMS 2 has its finger on the pulse.

Sample Twisting

All of the 4,500 unique samples have been produced for SYNTHETIC DRUMS 2 – exclusively. A huge arsenal of equipment was used to create the sounds. The samples themselves were subjected to the

lengthy production process involving numerous effects, filters, ring modulators, compressors, frequency shifters, granular samplers and so on. All of the producers were given complete artistic freedom, resulting in an extremely varied and individual set of kits. Every kit also has a short demo sound-clip that has been produced exclusively with the samples from that kit. A MIDI file is also included, offering an insight into how the clip was arranged.

BATTERY 2 and KONTAKT

The 36 drum kits have all been optimized for use with BATTERY 2 and KONTAKT, making heavy use of the varied sound processing features such as filters, loops, velocity, effects and modulation. The results are extremely diverse and distinctive sounds that can be quickly trimmed to individual needs in BATTERY 2 and KONTAKT. All the samples are included in 24-bit / 44.1 KHz WAV format. To give an overview of what is available, there are also contains special kits that group all the bass drums, all the snares, all the toms and so on into individual kits.
