

## **Native Instruments releases KOMplete SELECT**

### **Premium instruments and effects bundle now comes included with all KOMplete KONTROL S-Series keyboards and MASCHINE hardware**

Berlin, May 20, 2015 – Native Instrument today released KOMplete SELECT – a premium selection of 10 KOMplete Instruments and Effects carefully chosen to give producers working in all genres a wide-ranging toolset for music creation. The release of KOMplete SELECT comes in tandem with the KOMplete KONTROL 1.1 software update, which opens the KOMplete KONTROL platform to all single KOMplete Instruments and provides a powerful new set of performance features. KOMplete SELECT is free for all registered KOMplete KONTROL S-Series keyboard owners, as well as all registered owners of the MASCHINE 2 software.

KOMplete SELECT includes 10 carefully selected KOMplete Instruments and Effects. Included in this suite are NI's best-selling synth MASSIVE, the new sampled piano instrument THE GENTLEMAN, the true-to-life analog synth emulation MONARK, and the first-of-its-kind acoustic/electronic drum hybrid DRUMLAB. RETRO MACHINES MK2 comprises over 20 pristinely sampled legendary vintage instruments from the 70s and 80s. VINTAGE ORGANS delivers high-quality recordings of classic organs. WEST AFRICA provides the sound traditional West African percussion, playable solo or as polyrhythmic ensembles from an intuitive pattern sequencer. KOMplete SELECT also features REAKTOR PRISM, SCARBEE MARK I, and SOLID BUS COMP. Together with a KOMplete KONTROL S-Series keyboard, this bundle provides a production-ready system out of the box. Furthermore, the KOMplete KONTROL software is also part of KOMplete SELECT. This means that all single KOMplete Instruments can now be controlled from an S-Series keyboard. S-Series keyboard owners also now qualify for special crossgrade pricing to NI's award-winning KOMplete 10 and KOMplete 10 ULTIMATE instrument and effect suites.

KOMplete SELECT also marks the release of the first KOMplete KONTROL software update. The recently-released KOMplete KONTROL 1.1 software update expands the software with a host of powerful features. Improvements include the ability to route and record MIDI sequences created with KOMplete KONTROL's Smart Play functions freely within a DAW environment, as well as sending MIDI to outboard gear. An enhanced preset management system allows quick saving and recall of user presets from within the KOMplete KONTROL software. New Touch Kontrol functionality allows users to control more of the software directly from the keyboard, providing a more immersive hardware experience without the need to refer constantly to a computer screen.

## **Pricing and availability**

KOMPLETE KONTROL S-Series keyboards are available at retailers worldwide and at the NI Online Shop.

KOMPLETE SELECT is free to all registered KOMPLETE KONTROL and MASCHINE 2 software users. A download code and serial number will be sent by email. New customers will receive a KOMPLETE SELECT serial number on successful hardware/software registration.

The KOMPLETE KONTROL 1.1 software update is available as a free download from Service Center.

## **About Native Instruments**

Native Instruments is a leading manufacturer of software and hardware for computer-based music production and DJing. The company's mission is to develop innovative, fully integrated solutions for all professions, styles and genres. The resulting products regularly push technological boundaries and open up new creative horizons for professionals and amateurs alike.

Native Instruments opened up the fascinating world of real-time sound synthesis on standard computers in 1996, and today offers an extensive product range for musicians, producers and DJs. The company currently employs more than 400 people in its offices in Berlin, Los Angeles, Tokyo, Shenzhen, and London and works closely with more than 40 international distribution partners to ensure its future growth and success.

*MASSIVE was designed and developed entirely by Native Instruments GmbH. Solely the name Massive is a registered trademark of Massive Audio Inc., USA.*
