

## **Native Instruments releases RADIANT HORIZON MASCHINE Expansion**

**New MASCHINE Expansion delivers the colorful and unique sounds of forward-thinking urban pop with tropical flavor.**

Berlin, December 8, 2016 – Native Instruments today introduced RADIANT HORIZON – a new MASCHINE Expansion featuring percussive and effect-focused kits with sounds tailored to contemporary urban pop productions rooted in trap, moombahton, and bass music. The expansion focuses on diverse and easily interchangeable Caribbean-inspired rhythms as a backbone for bass-driven, forward-thinking pop. RADIANT HORIZON runs in the latest MASCHINE software on the entire MASCHINE hardware family and is available exclusively at the NI Online Shop. A compact version for iMASCHINE is also available via the iMASCHINE in-app store.

Created in collaboration with acclaimed UK sound designers Capsun ProAudio, RADIANT HORIZON provides a distinct fusion of expertly crafted drums, sub-basses, guitars, pitched vocals, and more – all sounds designed with the characteristic warmth of contemporary energized urban pop. The expansion includes a foundation of 50 exclusive Construction and Sound FX kits that make both rhythmic and melodic experimentation intuitive and easy – producers can load any kit and access detailed sound parameters in real time, providing a varied canvas for instant rhythmic and sonic variation. And 50 exclusive presets for the beloved MASSIVE and MONARK synths include powerful bass, lead, and accompaniment sounds that perfectly complements the modern sound signature of the drums and percussion included in the expansion.

Accompanying RADIANT HORIZON, Native Instruments has teamed up with finger drumming tuition app Melodics™ to bring NI customers an exclusive set of free lessons based on samples from the expansion. Users interested in honing their technique on the pads can get access by download Melodics™ and entering the promo code RADIANT-HORIZON during setup.

A compact version of RADIANT HORIZON is also available as an iMASCHINE Expansion, for creating beats on the go. Tracks can be exported to MASCHINE STUDIO, MASCHINE JAM, MASCHINE, and MASCHINE MIKRO for completion.

### **Pricing and availability**

RADIANT HORIZON is available now at the NI Online Shop for \$49 / 49 € / £44 / ¥ 6,280 / AU\$ 79 and runs in the MASCHINE 2 software.

The iMASCHINE expansion is available at the iMASCHINE in-app store for \$0.99 / 0,99 € / £0.79 / ¥ 120 / AU\$ 1.29.

## **About Native Instruments**

Native Instruments is a leading manufacturer of software and hardware for computer-based music production and DJing. The company's mission is to develop innovative, fully integrated solutions for all professions, styles and genres. The resulting products regularly push technological boundaries and open up new creative horizons for professionals and amateurs alike.

Native Instruments opened up the fascinating world of real-time sound synthesis on standard computers in 1996, and today offers an extensive product range for musicians, producers and DJs. The company currently employs more than 400 people in its six offices in Berlin, Los Angeles, Tokyo, London, Paris, and Shenzhen and works closely with more than 40 international distribution partners to ensure its future growth and success.

*MASSIVE was designed and developed entirely by Native Instruments GmbH. Solely the name Massive is a registered trademark of Massive Audio Inc., USA.*
